VOLUNTERS'S OPENION REGARDING PROGRAMME

Everyone has a philosophy to live by; some of these philosophies are good, others bad. This is so because not all people are correctly aware of what is good for them and for society. This ignorance is due to improper education or guidance. Many do not bother to question but remain content with their situations, however crude or

selfish. Again, some of these philosophies may not be workable in modern times and some may be too far-fetched and unattainable.

The majority of people have sense enjoyment as their goal, though they may not admit it! Some do everything to gain position, power, name, fame, and so on because they think these are the greatest things in life. Each type has a set of arguments to justify their doings. In other words, they all have a philosophy of life. However, we are shown by sages and saints the path to express our infinite possibilities and reach a state that is universally valued and respected. The lives of Buddha, Mahavira, Christ, Sri Ramakrishna, and many other great persons have demonstrated this truth.

The principal of the college gave the inaugural speech. in which he spoke about the importance of self less service in every field of life. Dr.Dinwita Mukharjee, head of the department of sociology, gave speech regarding correlation between philosophy and service in life and work of every person.Sri Biplab sanyal,head clerk of the college and also a practicing physiotharpist and yoja expart,also spoke about how physical fitness and good health are very important in one's philosophy of life. He also referred to Swami Vivekananda's of tee queted dictumed that plying football in the fined is much better than empty lazy contemplation. A few student
